The Union has an article upon Banks and Banking, in which it attributes the monetary troubles now experienced entirely to the expansions and contractions of the banks We have said ourselves that much of the mischief has been caused by the imprudent facilities given by the banks to speculation and over trading—by loaning immensely to large operators, when they *should* have restrained the growing spirit of speculation, by refusing those facilities which if refused by them, could have been nowhere else obtained We have recognized this as one of the moving causes of the present monetary crisis, as it has been of many former periods of depression But we are by no means prepared to go the length proposed by the Union—nor we think it would remedy one evil by introducing other and more disastrous ones in the business of the country That paper would permit banks of *deposit* and of *discount* to exist—thinks the former a commercial necessity, and the latter of great utility and convenience—but would sweep away every bank of *issue* from the country That is to say, it would have no bank paper in circulation except such as is based exclusively upon an equal amount of specie in the vaults The banks (on the Union's plan) could receive only specie on deposit, and make loans only to the amount that is received, or to the amount deposited in specie by the bankers themselves Although the Union does not call it so, it would be nevertheless a pure *hard money system* and nothing else For every dollar circulating in the shape of "certificates of deposit and other paper credit silver must be locked up in the vault of some bank, and paper issued by the trust of somebody beside the lawful owner For the convenience of having paper money to handle, the public would be liable to the danger of having a *local* money embezzled by dishonest bankers *Other paper*, strictly besides gold and silver could not exist as now be represented by bills of exchange and thus made to subserve the purposes of a currency to give life and extension to business and to aid in developing the resources of the country Houses and lands, farms and produce, would have no representative value whatever so far as circulating medium is concerned and we should necessarily be shorn of the largest portion of the facilities for business engrafted under the present system—We would not infer from these evils of our banking system which we acknowledge needs more prudence and greater restrictions in its management but we would not on the other hand abolish it and return to a metallic currency—We believe the evils of the latter would greatly outweigh those of the former A change in business would result more injurious by far to the people than the pinches and pressures and crises which now afflict us. Frequent though they be Under a metallic currency the man of capital would have all the advantage over the man of labor, for the latter could get no credit of any man in the world for which would consequently grow richer and the poorer Employment would be scarce and wages low The country would stand still and our resources never be developed There are evils in both systems—but we think the *evils* of the one far outweigh the benefits of the other

LUCKNOW TAKEN BY THE REBELS—A Calcutta letter to the N Y Herald says that Lucknow the capital of Oude, has fallen All the Europeans have been massacred by Nena Sahib, and the relief force under Gen Havelock has been ordered to fall back upon Cawnpor terribly decimated by cholera

This news is claimed as later than any reported in the English dispatches

A National Peace Congress is embodied at New York on Tuesday—some fifty of the most celebrated peace lovers of the Union being present A grand mourning meeting which the best players from different sections are matched against each other—was going on at last accounts It is to continue three weeks

In our notice of the recent editorial change in the *Kennebec Journal* we should have stated that John L Stevens, Esq who has rendered such good service to the Republican cause during the past three years, still retains his editorial connection and proprietary interest in the Journal The publishing firm is now Stevens & Sawyer

ANOTHER BRUNSWICK HOAX —The Boston Journal on the authority of a correspondent in Brunswick, states that the house of Ex Gov Dunlap, with all its contents, was burned down on the night of the 3d and a son of the Governor was so severely burned that he would not recover The statement was a pure and unadulterated falsehood

A REMARKABLE LANDLORD—An exchange says, "Mr James Ward who owns a large number of tenements in Chicago, Ill., has in view of the hard times, visited all his tenants and reduced their rent a twenty per cent

The British steamer Niagara, in going up Boston harbor on Tuesday night ran down a Cape Cod packet named the Ellen Maria—One man lost, and twenty persons, part of them women, were picked up by the steamer and schooner's boats.

LOCAL AND MAINE NEWS.

In speaking of the recent State Fair, the Augusta Banner says

We were glad to ride over to Bangor to the State Fair, last week For the first time we tested the railroad from Waterville to Bangor, and found it in all respects, a pattern road Bangor was crowded to overflowing Hotels and private houses swarmed, but a generous hospitality crowned every board and opened all doors and hearts The show of stock was fair though not large, and the display of horses was very superior

On the whole the success of the Fair in Bangor has proved that the State Society is a fixed institution Everybody is praising the enterprise and spirit of Dr Holmes and his associates, and the generosity of the Bangor people.

Our friend of the Skowhegan Clarion thinks there was some disposition shown here "to take advantage of the necessities of visitors," and to sponge them in the matter of prices—We have made some inquiries, and believe the cases must have been very rare of the kind to which the Clarion alludes Our people were generally disposed to treat visitors as handsomely as they could, and we know the houses of our people were very generally thrown open, without money and without price to those who could find no accommodations at the hotels or boarding houses.

CHARGE OF ARSON —*Police Court* Patrick Murphy was arraigned before Judge Pratt on Thursday, on a charge of arson, for burning, on the night of the 1st inst, two dwelling houses in Brewer, the property of Royal Brown, one of which was occupied by the owner and the other by Mr Severance T G Garney appeared for the State, and Asa Waterhouse for the defendant On motion of the counsel for defense, the examination was adjourned to Wednesday next, in order to procure testimony to prove an alibi Meanwhile Murphy is committed to jail

O I Larrabee, of this city, has left on our desk three beets, raised in his garden this season, which for size will compare favorably with anything of the kind we have seen Two of them are of the turnip species, the largest measuring 22 inches in circumference, the other is a long red, 22 inches long and 13 inches in circumference Mr L is a blacksmith, but finds time to hammer up the soil to good advantage

Mr Phineas Bachelder has been appointed to superintend the work of repairing the sea wall from approach to the Custom House in this city The Union understands that the cellar of the Custom House is to be finished and used as a government ware house

COMMITTED FOR ADULTERY. Mrs Olive Curney of New Gloucester was committed to jail in Portland on Wednesday, on a complaint for adultery with Sawyer Harris On examination before Justice Bradbury she was ordered to give bail in $200 to appear for trial in November

EXPECTED ARRIVAL OF A NEW STEAMBOAT The new steamer *Montreal*, just finished in New York, for the Portland Steam Navigation Company to be put on the route between Boston and Portland, is expected to leave New York to day for Portland

ANOTHER VICTIM OF INTEMPERANCE Mrs Ellen Quinn was found dead on the floor of her lodging room Fore Street Portland on Tuesday evening She was an intemperate woman and was suffering from a neglected wound inflicted by her husband

Charles Holden, Esq., has resigned the situation of Treasurer of the Portland Gas Company and James I McCobb, Esq., has been re elected to the place

Miss Jeffords, daughter of Samuel Jefferds, of Wells, was badly gored to death by an unruly cow last Monday Her life is despaired of

SUSPENSION The only suspension inland of Waterville is that of the new bridge which is already suspended nearly halfway across the kennebec The contractors talk of reaching the opposite bank during the present month, if the weather continues favorable The false bridge extends nearly across, and the timbers of the true one measure all but the last span—*Mail*

Launched at Frankfort on the 6th inst, at the yard of Treat & Co, the brig Robbin, 300 tons, owned by Treat & Co Also on the 9th inst at the yard of Webster Treat & Co, (Frankfort,) the brig Ann Eyle 180 tons, commanded by Capt Andrew Tyler—Webster Treat & Co, owners Capt Tyler is an experienced ship master of 40 years standing never lost a man and never called upon the Insurance Company but once

We learn that the persons injured at the time of the Fair, in this city, are all doing well Mrs Brown was able to be removed to her residence in Richmond, on Monday afternoon last—*Gardiner Journal*

AN ANTIQUITY The Bath Tribune has the following

Our attention was called, a few days since to a Druggist's mortar belonging to Dr Wilkinson, of this city, which has been in use two hundred and twenty three years It now weighs 80 pounds, and on it appears the following inscription, verbatim et literatim et punctuatim

I P MADE ME IN 1624
I SOVND A NOIE TO
CALL A GROTE

ACCIDENT —Mr Wm. H Wildes, of Phipsburg, while at work in one of the Winnegance Saw Mills, accidentally fell out and was precipitated down some distance to the water, striking with full force on a log, breaking his spine, and injuring him otherwise, it is supposed, fatally The accident occurred yesterday afternoon.—*Bath Tribune*

FIRE IN PITTSTON A fire took place in the dwelling house of Mr John Grant in Pittston about 9 o clock on Wednesday morning. The lower portion of the house was saved Insured at the Monmouth Mutual Office for $700 which will fully cover the loss.—*Gardiner Journal*

FATAL ACCIDENT Mr Mace of Dead River was thrown violently from his wagon, on Thursday of last week, while on the way to visit his relatives in Farmington, and so injured that he lived but a few hours.—*Farmington Chronicle*

MAURICE C. BLAKE, ESQ. We learn that Maurice C Blake, Esq., formerly Collector of this port has been elected County Judge of San Francisco, on the People's ticket. This is a lucrative office, having a term of four years at $6000 per year.—*Belfast Free Press.*

PEOPLE'S BANK WATERVILLE.—P. L Chandler, the president, and J T. Champlin, a director, having resigned, the following elections were made on Monday—John R Philbrick, Homer Percival, Wm Conner, I W Herrick, Luke Brown 2d, C P Mason, and John L Seavey, directors. John R. Philbrick, was subsequently chosen president

FIRES. An alarm of fire Friday evening called out the engines The storage building in the lumber yard belonging to J S Lord was pretty well burned down, before the flames could be stayed An alarm on Monday evening proceeded from the lumber yard of J W Wood & Co. The building used for storing short lumber, was set on fire by incendiaries The fire was happily discovered in season to be put out before it had done much damage,—*Ellsworth American.*

A ton of dry forest leaves produce only five hundred pounds of mould, hence, five hundred pounds of mould produce a ton of plants

TERRIBLE ACCIDENT We learn that as Mr L M Winslow, of Auburn, his wife, infant child, and his sister, were riding, Thursday, near the New Gloucester line, their horse took fright, and threw the whole party out of the wagon, breaking the thigh of the infant, and injuring Miss Winslow so severely that she died in a few minutes We learned no further particulars —*Lewiston Journal*

LIBEL SUIT WITHDRAWN The libel suit of Erastus Brooks, one of the editors of the New York Express, against the editors of the Kennebec (Me) Journal, on account of an article published soon after the Presidential election last fall has been withdrawn—the editors of the latter paper making a fair retraction—"The interposition of mutual friends and of counsel on both sides" led to this sensible course

Premiums at the State Fair.

(Continued)

Wm E Coffin, Boston, for specimen "Slate of Maine nails, manufactured at Perrsboke, Diploma

Boston Belting Co, for superior rubber belting, exhibited by Franklin Muzzy & Co, agents, Diploma

Otis Shertzer, Rockland, for specimen superior lime (not a barrel), Diploma

Mr Charles Hale, Bangor, for patent apparatus for generating gas from wood,

$6 00 and Diploma

[The apparatus was in full operation in the building, the light was powerful, clear, and pleasant to the eye—and the demonstration of this method of producing illuminating gas, at very small cost, was entirely satisfactory—Mr Hale is ready to demonstrate that a cord of wood will, through his apparatus, produce 30,000 cubic feet of gas For illuminating large buildings such as factories, hotels, &c, where there are no gas works, your committee think it will prove highly advantageous]

Ufford, for lamps (producing a strong light from ordinary grease and the refuse fat of cooking, &c) Diploma

J G Drew Tenison for excellent specimens of bobbins and spools, Diploma

J M & A Fros Orono, superior specimen of True's patent bill discharger, Diploma

Allen Orono excellent specimen of fine mackinaws Diploma

Miss S P Sprague, Portland, for very beautiful specimen of wax flowers, $2 00

R Morey, Union, for excellent specimens of coopers tools Diploma

Wm Flowers, Bangor exhibited an assortment of copper coated iron spikes or ship work, from manufactory of C & J Marshall Delaware The coating was perfect and the iron very tough The Committee had no means of ascertaining as to the durability of the coating, but would recommend the article to the special consideration of the ship builders of our State

F Muzzy & Co, Bangor, presented a ship work of iron bolts, nuts, &c, combining cheapness with strength, deserving the notice of our shipping interest.

Hinckley & Drury, Bangor, presented specimens of iron doors and window shutters of superior finish

The Kaladin Iron Company exhibited a superior specimen of iron boiler plate

Lates & Whitney, Bangor, presented samples of experimental cast iron for rolling for sheet proofs, to which the special attention of builders is called

E Holmes, Winthrop, entered an apparatus for keeping butter cool, (the only thing of the kind offered for premium) such as is also a necessary description, which is herewith submitted While your committee are doubtful of its practicability for general use, they would recommend it to public attention on account of the principles involved, and would suggest therefore a gratuity of $3 00

J S Savage, Bangor, presented a new kind of pencil sharpener, invented by Septimus Wilson your committee consider superior to anything of the kind which has come under their inspection, and to which they would award a diploma

S B Beckham, Warren, exhibited Knapp's patent improved burning rosin oil The strength of the illuminating power of these lamps, with the superb steadiness of their flame, combined with their economy, must give them a wide popularity—and your committee would cordially recommend them to the notice of the public

Mrs H C Ingersoll, Bangor, exhibited one of Wheeler & Wilson's patent sewing machines in operation, with specimens of its work This machine will win its way to favor until our commendation from your committee The thanks of the Society are recommended to Mrs I, and a diploma awarded

Your committee would also recommend the thanks of the Society to the following persons

To C V Ramsdell Bangor, for case of highly finished and beautiful rifles, and other sporting apparatus

To B F Bradbury, Bangor, for elegant display of drugs and perfumery

To Burbank & Allambly Bangor, agents, for exhibition of Douglass's patent Hydraulic Ram

To E F Duren, Bangor, for beautiful exhibition of books and stationery

To J S Ricker, Bangor, for an assortment of splendid porcelain ware

To Edward G Norton, Bangor for sample of pipe moulding, 50 feet long in a single stick

To Goodhue & White, Bangor, for display of excellent fishing poles

To L R Weeks & Co. Orono, for exhibition of fire kindlers, from their factory, and also would recommend to them a diploma.

To Eben Luttle, Canaan, for model of pressure water wheel.

To S S Smith, Bangor, for exhibition of Adams's patent power printing press, in operation, and a gratuity of $3 00

To J S Ricker, Bangor, for exhibition of De Guinon's non-explosive camphene lamps and cans

CORRECTION. In the award of premiums on manufactured article, a premium of $1 on a toilet table and centre table was given to Mr John S Johnston of Bangor, we are informed.

DEATH OF HON. LOUIS MCLANE.—*Baltimore, Oct. 8* The Hon. Louis McLane died in this city yesterday.

[From the Lawrence Republican, Sept. 26]

Col. Titus makes known their plans.

A friend of ours just returned from St Louis, informs us that on his trip down the river he was much of the time in company with the noted Col Titus, and reports him very jubilant over their prospects of success in the October election. Titus says "he knows the Pro Slavery party will succeed," and adds, "Why shouldn't we rejoice over it We have got the thing all fixed, and success is certain The Constitutional Convention will adjourn (this was before the adjournment) until after election It will then meet and pass a Pro Slavery Constitution, submit it under restrictions that the mass of Free State men will not comply with, and we have the assurance of our friends in Congress that we shall be admitted under it"

When asked how they expected to carry the election, with the present predominance of Free State voters, he said "All the Indians, who were with them, would vote, and, besides, he knew of more than a thousand Pro Slavery men in Missouri who had claims in the Shawnee Reserve, who would be on the ground, and Pro Slavery judges would receive their votes The blue lodges would be raised hundreds, yes thousands, into the Territory—not in an army, but quietly, who would claim a residence, and would in like manner, vote They had been organizing for the purpose since last spring

Small parties of Missourians each having a complete outfit of whiskey and "side arms" have been seen spreading themselves through some portions of Kansas during the ten days previous to the election The Herald of Freedom had no doubt another concerted attempt was to be made to carry the election The first reports from the election are that the pro slavery men have carried the Legislature, but there is no certainty of it yet

THE DUTCHMAN AND THE DANDY —An old plain looking, and plain spoken Dutch farmer from the vicinity of the Heidelburg, in pursuit of a dinner at the other day dropped in at a restaurant Taking a seat alongside of a dandy-mamma sort of a fellow—all perfume moustache and shirt collar—our honest Mynheer ordered up his dinner

"What will you have sir" asked white apron

"You got corned beef, hey" says Dutchy

"Yes"

"You got sourkrout, too, hey"

"Oh, yes"

"Well, give me some both"

Off started white apron on a keen jump, and presently returned with the desired order The sourkrout was smoking hot, and sent forth its peculiar flavor, even by satisfactory to Mynheer a usual organ and the waiter so to that of our dandy friend, and Mynheer was about commencing an attack upon it when he exclaimed

"I—a—say, my friend a—are you going to eat that stuff"

Mynheer turned slowly around, and looking at his interrogator with astonishment, says he

"Eat it my of course I eats it

"Well, said the dandy, "I—a—would as lief devour an old sheep's gum shoe"

"Ah, well, replied Mynheer, pitching into the sourkrout with an evident relish, "dat depends altogether on how you was brought up"

Dandy looked kinder cased in, and we left with the opinion that Dutchy was ahead

CURIOUS SCIENTIFIC EXPERIMENT —The reporter of the Boston Traveller, while on his way to the Scientific Convention at Montreal witnessed an experiment by one of the learned members of that body, which he describes thus I saw a large red faced, burly gentleman perform a novel experiment at White river junction He held a tumbler half full of water, and by discharging a pocket pistol into the same, charged the contents into a brandy bust After holding the liquid in the tumbler deliberately drank it I understand the experiment is quite a common one

SPECIAL NOTICES.

Waterville No. 3.

At a meeting of Waterville Engine Company No 3, held Monday evening, Oct 5, 1857, the following resolutions were unanimously adopted

Resolved—That we tender our warmest thanks to the Eagles and Ex Eagles of Bangor for their constant and unremitting attentions, and for their beautiful collations, the use of their Hall and Engine House and their other favors far too numerous to be mentioned, on our late excursion to Bangor on the occasion of the State Fair We can not in words, express our sense of the obligations we are under to them and only hope that we may soon have an opportunity to revenge ourselves by showing in some small degree *by acts* our appreciation of their never equalled acts of courtesy and kindness

Resolved—That we also tender our thanks to Chief Engineer Gatchell, and our other friends in Waterville, for their unexpected reception of us, their illumination of our Hall their bountiful collation, and other kind acts which contributed so much to the pleasure of the excursion

Resolved—That these resolutions be published in a Bangor paper, and the Eastern Mail, and a copy forwarded to Capts Dole and Pierce, of the Eagles

Bite of a Rattlesnake cured in ten minutes

Messrs. Perry Davis & Son Gents—A merchant of Limestone, in this State, informs me that recently one of his sons was severely bitten on the leg by a rattlesnake, from the effects of which he suffered most dreadfully—The family chancing to have some of Perry Davis' Pain Killer in the house, immediately commenced bathing the bitten place, without knowing whether it would or not afford the least relief, but surprising as it may seem, the poison was soon observed to exude from the wound and in five or ten minutes the young man fell asleep entirely free from pain or any effect from the bite, except the flesh wound, which healed very soon By giving publicity to this fact in your pamphlet designed for southern and western distribution and such countries as poisonous reptiles more or less abound, it might serve the cause of humanity, and be the means of supplying an article, the want of which has long been experienced

Respectfully yours

Removal.

E. F. PLAISTED, M. D.

Physician and Surgeon,

Has removed his Residence and Office to Hammond Street nearly opposite the Hammond Street Church where he may be consulted at all hours, unless otherwise professionally engaged

Dr P will continue to pay particular attention to diseases of the Chest, those of the Lungs, Throat and Heart. Two years almost exclusive attention given to those diseases under the most eminent German physicians in Philadelphia and his thorough knowledge of the sciences of Auscultation and Percussion enables him to detect the slightest deviation in those organs from their healthy action

His experience and success in the treatment of Lung difficulties especially give great confidence in his ability to give most entire satisfaction in all who may request his services

Patients coming from a distance will be accommodated with boarding at his residence

CATARRH.

What is catarrh? Where did I catch it? What are its characteristic symptoms and how is it to be cured? Every Medical Book should have given a truthful answer to these important questions But it has not been so and the consequence is that although it has been supposed to be a disease of the climate, but it has now been pathologically discovered—and guessed at and their cure was never cured Fauntleroy's Catarrh Remedy is the only one that people have declared that it can cure for Catarrh was never yet found

This is no humbug but no mistake A Remedy has been found and it can be cured because the disease is now understood This Remedy, composed of the Sanguinaria Canadensis Hydrastis Canadensis Xanthoxylum Fraxineum Stillingia Sylvatica Gum Guaiac Potassa Iodidi and Conium Maculatum has been prepared and now offered by Dr R Fauntleroy of New York after having had occasion to doubt or question very many reports and facts of cures in any stage or condition of it After carefully following the directions given with each bottle

Alpine Hair Balm,
—FOR—
Restoring Gray Hair to its Original Color

WARRANTED to cure Baldness, Scurf Dandruff, Itching and all diseases of the skin This Balm gives the scalp a new and healthy action restores the coloring matter to the roots of the Hair, which passes through the Hair and gives it a natural color without the use of Hair Dye

Hundreds of preparations have been introduced, pretending to preserve the Hair and keep it from falling off, composed of oils Alcohol and other deleterious materials, and all to no use Hair dyes have been introduced that do not give the Hair a natural color, besides being troublesome to use This Balm is not a Dye Knowing that a preparation was needed to do what was required for the Hair the proprietor was induced to experiment until he could obtain an article that would be the exact remedy and after seven years trial has perfected this Balm It is soothing and emolient, allays all irritation of the scalp thereby stopping that troublesome itching It cures Dandruff, and Scurf, and when the hair has turned gray it will bring it back to its original color, be it Black Brown or Auburn It makes the Hair soft and glossy, prevents it from falling off as will be seen upon using this Balm for only a few days—life will be given to the roots of the Hair and growth will soon appear Growth does not take place at the end of the Hair as will be seen in persons who have had their hair dyed If you examin gray hair that has been colored for a week, you will find towards the roots, that the hair has come out gray hence it is necessary to have the fluid at the roots of the hair healthy that the whole hair may be a natural color Each hair has a root in the skin and is of itself a hollow gray tube, through which there is a constant circulation of the pigment from the root When this pigment or coloring matter dies out, it leaves the hair hollow, and it becomes gray To invent a Balm that would produce this pigment has become the study of the proprietor The discovery of the Alpine Hair Balm will do it It will bring the hair to its natural color by making anew the coloring matter in the roots of the hair

It is a mistaken notion that oil or grease will restore the hair as nothing can be more injurious The Alpine Hair Balm will restore the skin and save the hair of those who have been sick with fever or any other disease

STUMPS.

HALL'S
New Stump Machine!

I HAVE INVENTED an improved STUMP PULLER, which two men can carry about the field from one stump to another, and draw the largest pine stumps out of the ground by hand power, without oxen horses, ropes or blocks and without digging round

This is a great improvement on Stump Machines as two men will take up a common stump in about two minutes and dispenses with any team, and can be worked when the ground is soft in the spring and does not break up the grass field as by the old process of a heavy team

This Machine is entirely different from any ever used before comes cheaper, and is very durable Price $80 I have them now on hand and for sale at my mill in Bangor, Me W HALL

CERTIFICATE

We, the undersigned having this day witnessed the operation of Hall s Stump Machine, in the field of W Washington Hall in this town, certify that it fully answers the representations set forth in the advertisement of the same and that, in our opinion, on the score of its lightness, ease of management great power obtained, despatch in its work, and small expense it is far superior to any stump pulling machine with which we are acquainted, and is so perfectly adapted to a purpose that it must in time supersede all others now in use

STEAMERS.

California Steamers,

Carrying the United States Mail.

5th and 20th of each month

Greatly Reduced Prices 60 lbs Baggage Free

Through Tickets including transit of the Isthmus, via Panama R R.

By order of the Postmaster General the United States Mail Steamers will hereafter be despatched from New York direct to Aspinwall on the 5th and 20th of each month

Passengers are landed at the Railroad Depot, Aspinwall and conveyed across to the Pacific Steamers *without any extra expense* This is the *only* line going in the through Tickets including *meals* on the Isthmus

Transit made in *four hours entirely by daylight*, thus avoiding the great exposure by night in open boats to fever and ague and 240 miles of dangerous lake and river navigation, over rocks and shoals

Arrangements have now been completed so that the regular U S Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers thus securing passengers by the Mail Line a *sure* and *short* passage without any detention on the Isthmus

Tickets must be secured by one of the Company's Agents before they can be received by the Agent at Panama and tickets thus signed can be obtained of the *only authorized Agent* for the Atlantic and Pacific Mail Steamship Companies, in this city C L BARTLETT Agent

THE LUXURY AND PROFIT OF

HONEY MAKING.

☞Torrey's Bee Hive.

THE subscriber having purchased the right of making and selling *Davis Patent Bee Hives* for the Counties of Penobscot Lincoln and Somerset which has been received with so much favor and taken the first premiums wherever exhibited has already effected an improvement into the Bee Hive and is now prepared to make the same in connection with the Davis Platform, and to sell rights to towns and individuals

This Bee Hive thus improved, is admitted by persons acquainted with the honey making business to be superior to every thing yet invented for the purpose It covers all the requisitions for the profitable maintenance of the apiary by providing for ventilation at all seasons of the year—room for the exercise and feed of the bees—convenience for the removal of excrement, for the proper separation of the swarms and generally for the health and comfort of the workers

The boxes used in this Hive for storing honey are the best adapted in their size for the market, holding from three to six pounds each

The subscriber wishes to purchase one hundred swarms of bees in exchange for bee hives and individual rights

For sale fifty swarms of Bees, with the new hives
